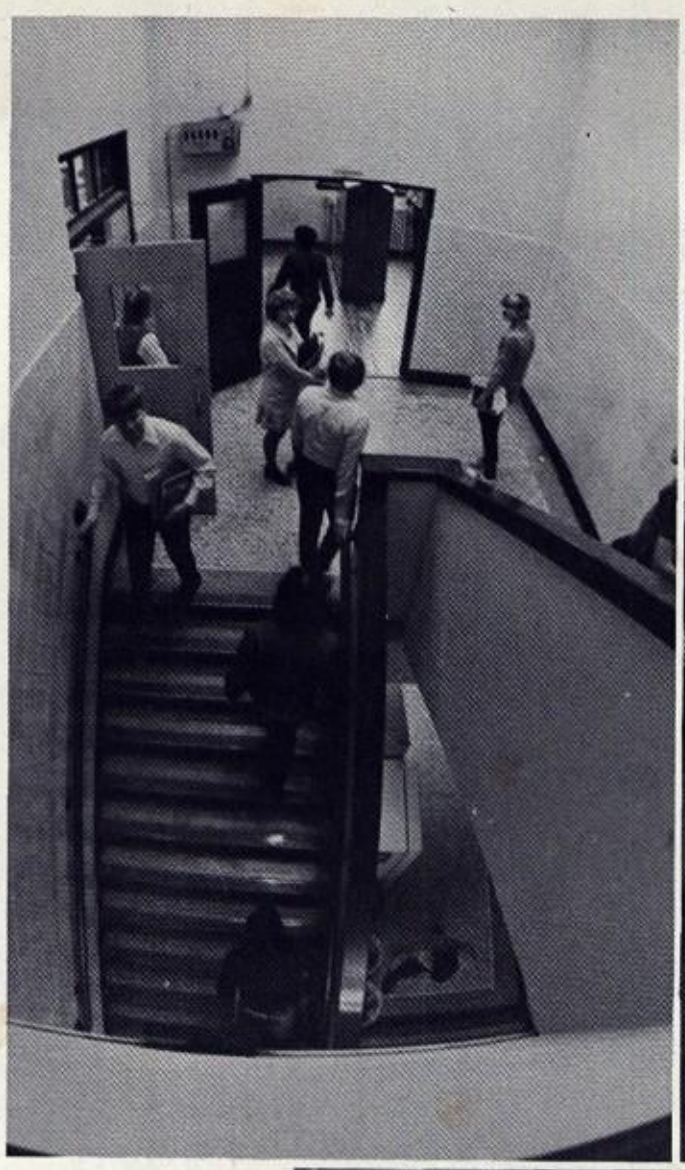
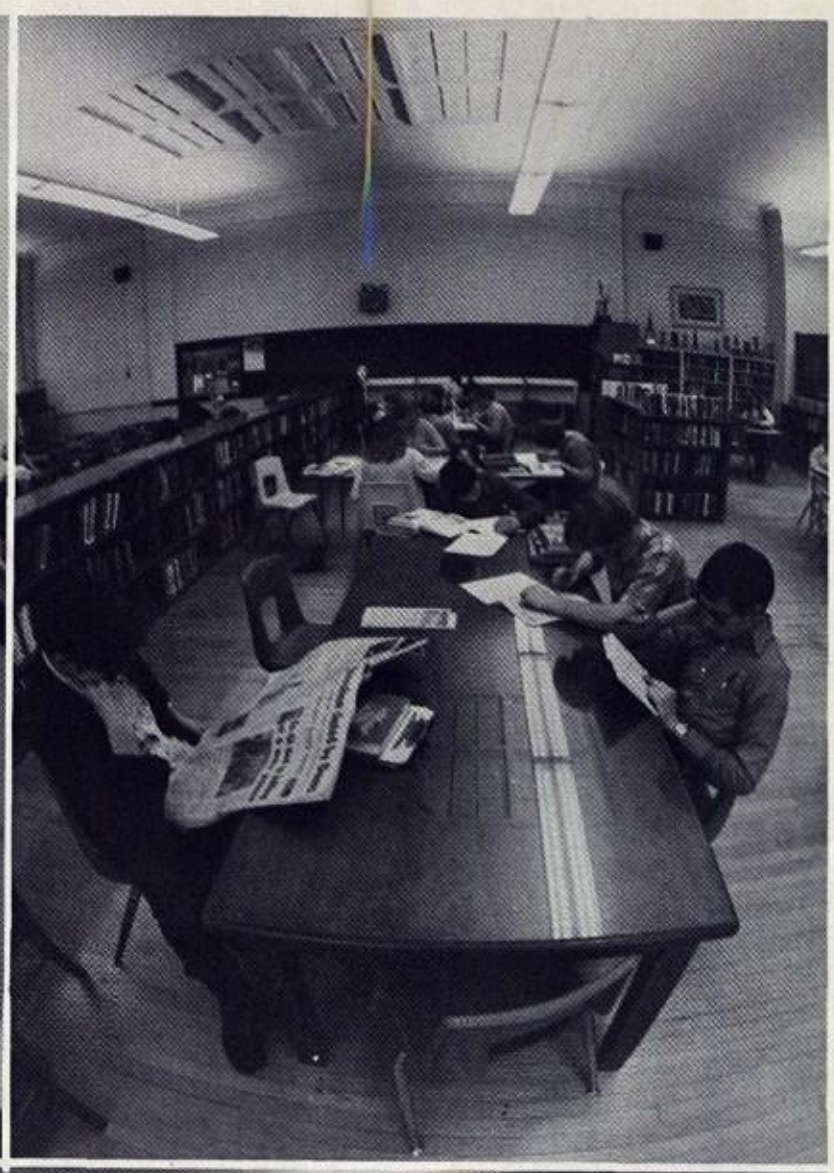
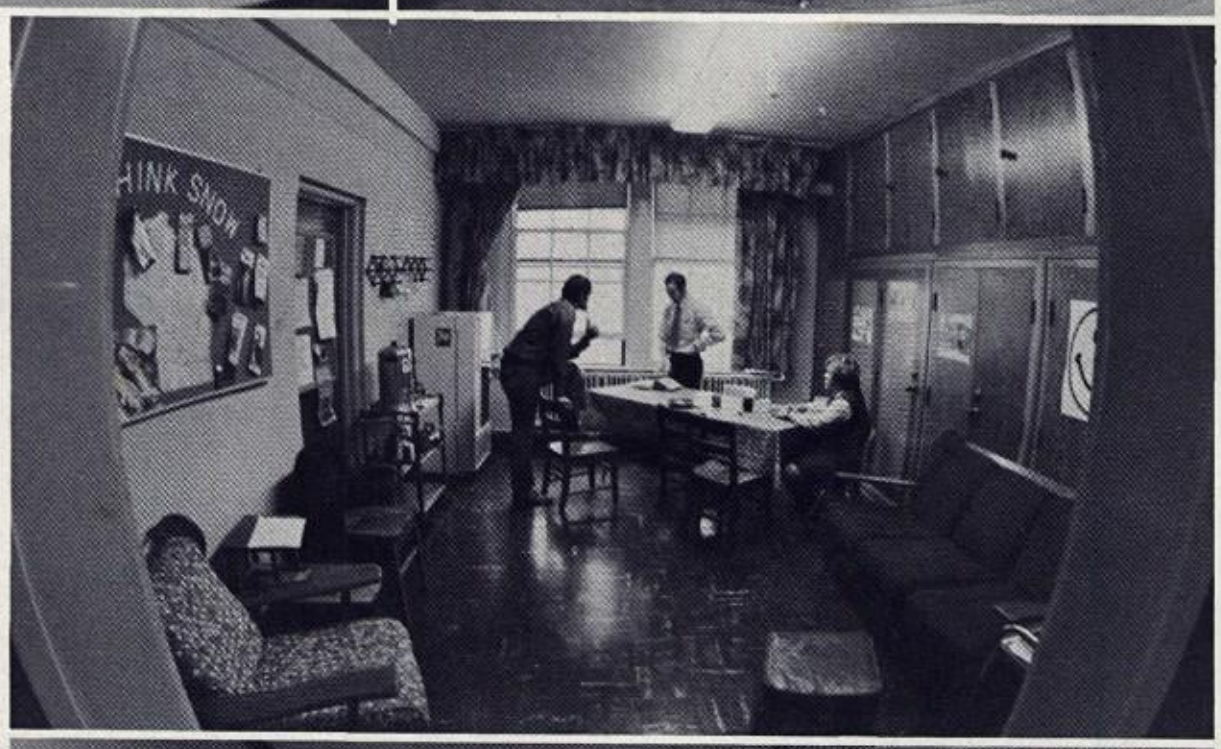
# WELCOME TO OUR WORLD

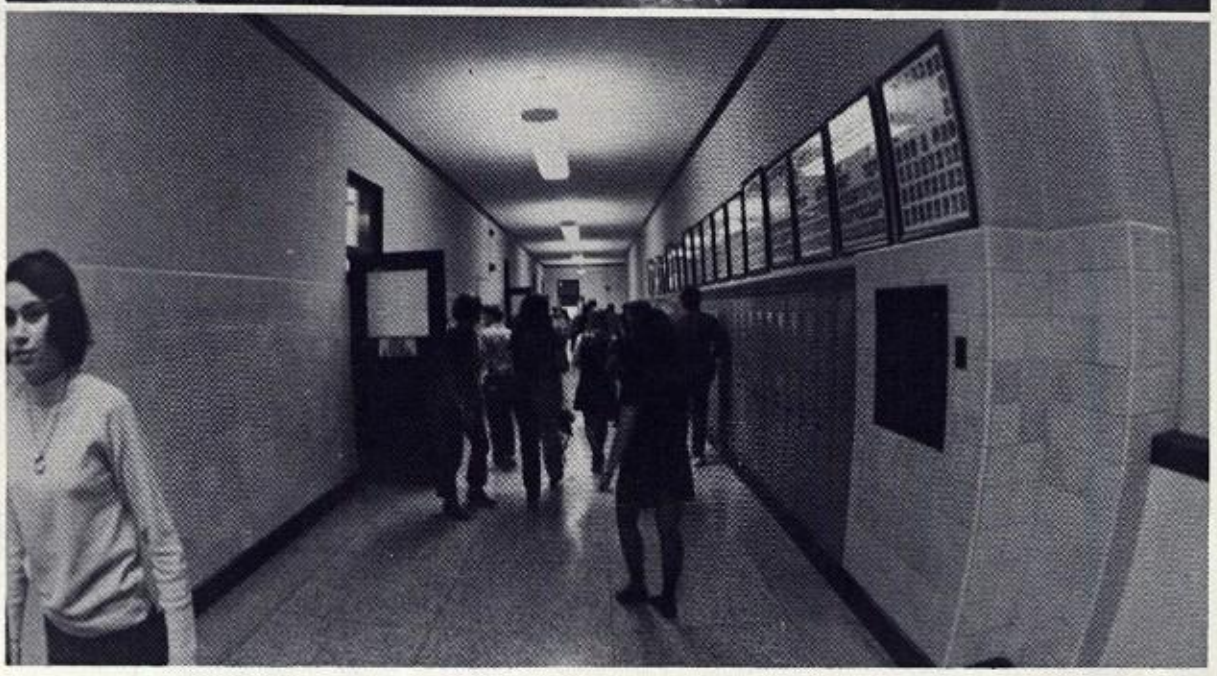
# THE 1971-72 TOLO

# THIS IS OUR WORLD









This yearbook is supposed to show part of what was Toulon High School 1971-72. It was our world. This is where we studied (or didn't study), laughed, gossiped, goofed off, got in trouble, made new friends and maybe even lost a few. But that was the way it was in our world.

These pictures were taken with a fisheye lens; sort of a different angle on things. At the top is the stairway at the south door of study hall, next is the library, below it is the teacher's lounge and the last is a picture of the upper hall. I hope you enjoy the 1971-72 TOLO; a book of our world.

# DEDICATION

It's not just because she's the foreign exchange student. It's because she has a cute smile and a manner that makes life a little nicer when she's around. It's because she's a lot of fun and we've had a lot of good times together. It's not because she's a fabulous super-personality who will be president someday. It's because she is a good friend. That's why we are dedicating this TOLO to PAIVI PIKARINEN.

THS was very happy this past year to have Paivi Pikarinen from Finland as our AFS student. She stayed at the Jim Simpson home. This year we were also proud to have with us Guillermo Jaramillo, the brother of one of THS's past foreign exchange students. This year a new program was added to the curriculum. This program, opened only to seniors provided an opportunity for the student to go into more advanced study in subjects taken in school or they could study subjects not included in the curriculum. In order to obtain an independent study, a student must fill out a contract telling what he wishes to study, how he plans to study, who will grade his study, and how he wants it graded. If the Faculty Committee approves his contract, he receives his study. I.S. students do not have to report to study hall. Instead they may report to the Independent Study Room. The pictures on this page were taken in the ISR.

# TOULON HIGH SPONSORS SKI TRIP

February 6, 52 students and teachers left for Four Lakes Ski Area at Lisle, Illinois. Apparently the early hours affected the students as there was one report of an attempt to hijack one of the buses to Cuba. The only other disturbance was a gas station stop required by one of the teachers for some unknown reason.

After stumbling through the procedures of renting equipment and fitting ski binding, we began our first ski lesson. How delighted the instructors were to see 43 beginners stumble towards them all at once.

After walking around on the skis, kind of getting the feel of them, we moved to the "dope slope" to learn the bewildering movements called sidestepping, straight running, and snowplowing. The most important maneuver we learned, however, was the complex method of getting up after you fall down (which most students found more effective than snowplowing for stopping).

Having developed these basic skills, we grabbed the rope tow and jerked up the slope, dodging skiers who had fallen along the way. Once on top, we stood around mustering the courage necessary to push off. As we got better and braver, we attempted the more difficult slopes.

The ride home was noisy. We stopped somewhere near the Yorktown exit on Int. 80 for supper. Rumor has it that a couple of girls were invited to go to Boston, but the chaperones gathered us together and herded us back to the buses.

# AND SO THE YEAR ENDS . . .

As we walked through these halls we found friendship, knowledge, and experiences to remember for a lifetime. This was our world for awhile. As Seniors, this was our last year in T.H.S. It was a year of freshman initiation, Prom, class trip, graduation, and other memories for the future. Although we may be separated, our memories of T.H.S. will linger on forever.
